TRANSITIONAL REMOTE CARE

Pallatus Health
TRANSITIONAL REMOTE CARE

Home Health

Mission

Pallatus Health is guided by a tradition of personal, clinical and technological excellence. We are dedicated to providing the highest quality of patient care with compassion and respect for each person.

Committed to Our Patients

We recognize the unique physical, emotional and spiritual needs of each person. We strive to extend the highest level of professionalism, courtesy and service to our patients and to their families. We likewise will extend the same to our business associates, visitors and fellow workers.

Committed to Leadership

We deliver state-of-the-art home care services with identified centers of excellence. We engage in a wide range of continuing education, clinical education and other programs for professionals and the public.

Committed to Excellence

We strive to create an environment of teamwork and participation, where through continuous performance improvement, people pursue excellence and take pride in their work, the organization and their personal development. We believe that the quality of our human resources - agency personnel, physicians, volunteers - is likely the key to our continued success. We provide physicians an environment that fosters high quality diagnosis and treatment. We maintain financial viability through a cost-effective operation to meet the organization's long-term commitment to the community.

Our Services Include:

- **Skilled Nursing**
- **Occupational Therapy**
- **Physical Therapy**
- **Certified Home Health Aide**
- **Medical Social Work**
- **Speech Therapy**

Skilled Nursing

We provide highly qualified Registered Nurses and Licensed Vocational Nurses who offer skilled care and essential instructions based on doctor-prescribed treatments to enable patients to function independently and improve overall health and quality of life. These services include but not limited to:

- **Treatment and Injections**
- **Supervision of medications**
- **Ostomies and Wounds**
- **Bowel/bladder training**
- **Catheter care**
- **Respiratory care**
- **Intravenous Infusions**
- **Pre'op and Post'op care**
- **Geriatric care and guidance**
- **Nutritional Guidance**
- **Family/Patient Health Teaching & Counseling**
- **Drawing of blood & Lab work**
- **Diabetic management (insulin therapy) & teachings**

Physical, Occupational, Speech Therapy

Licensed professional therapists provide therapeutic, rehabilitative and functional training programs designed to help patients resume self-care, develop and restore communication, and improve their abilities to carry out activities of daily living.

Certified Home Health Aide

Certified Home Health Aides assist our patients with activities of daily living, range of motion, increasing and strengthening exercises under registered nurse supervision. Provide personal care such as meal preparation and personal hygiene.

Medical Social Services

Social workers provide counseling for patients and their families in dealing with the social and emotional aspects related to each specific illness. Our specialists help family members to properly care for the patient by communication available community resources and coping skills management.

Who Needs Home Health Care?

- **Patients who need short term assistance after discharge from the hospital**
- **Chronically ill, or permanently disabled who wish to remain at home**
- **Elderly adults, who due to illness or disability, need assistance in their home**
